

3D Anatomy for Exercise, new user-interface

A brief guide to help orientate you to our new interface.

BROWSING

Whilst the core functionality of the products remains the same, all the browsing functionality has been moved to the left-hand toolbar.

Content is now organized by media type and illustrated with thumbnails to make finding what you need quicker and easier than ever.

Images, text, movies and animations can also be saved and shared from here.

IMAGE CONTROLS

The way you interact with the 3D model is still very much the same. Select a structure to highlight the image and display corresponding text, and use the rotation, layer and zoom controls beneath the image to navigate.

You can now also click and drag the model to rotate.

3D VIEWS

3D Views can be accessed using the top button of the left hand tool bar.

Thumbnails have been added to help you quickly browse the models.

MOVIES

Movies can also be browsed visually and can now be played full screen.

ANIMATIONS

Animations are movies showing muscle movement that can be rotated 360 degrees. Rotate the animation whilst it is playing to view the movement from different angles, and select any structure during playback to display its name, along with descriptive text.

You can now also click and drag the model to play the animation.

ANATOMICAL STRUCTURES

Use the Anatomical Structures panel to systemically browse the structures included in the product.

Also, leave the Contents panel open and select a structure in the image to discover its position in the hierarchy.

A list of highlightable structures can still be seen by opening the Visible structures window.

INDEX

Every structure, slide, movie and view is listed here alphabetically.

This allows for fast, efficient retrieval of content across all media types.

FAVORITES

Arrange your favorite images into folders, rename them and edit their order. Ideal for preparing presentations or lectures.

Export and import favorites to access from any PC or Android device.

SHARE

Direct other users to exactly the image you want them to see using our share function – use the copy link button on PC and Android devices, or select and copy the link on iPad.

DOWNLOAD

Save images, movies and text directly to your device from one place.

SETTINGS

Through the customizations in settings, you can now:

- hide the structure title and rollover labels for self quizzing or group testing;
- adjust colors of the highlight or background* to meet group or personal accessibility preferences;
- adjust the run-speed at which the views and animations rotate.

* Currently, background color can only be adjusted in Chrome on PC, Mac and Android.

SEARCH

Use the search to find any content type. Use the filters to hone down your results.

HELP
 For more information on how to use the product, please see the Help for an interactive point-and-click guide.
 Video tutorials will be added soon.

CLOSING THE LEFT PANEL
 Click on the active menu tab

CLOSING THE RIGHT PANEL
 Click on the right title header

For even more focus, both panels can be closed
